Offering the best of both worlds this trip starts off in central Hokkaido exploring Hokkaido's quieter powder destinations before heading into Sapporo where we'll ride two areas that should not be missed while enjoying the sights, sounds, culture and culinary delights in the world's snowiest major city. We finish off with 4 days in the Niseko area to check out Hokkaido's biggest and most well known resort, nearby Rusutsu and legendary backcountry. As with all of our trips, we have lots of options at each area we visit and will adjust to weather conditions to make sure we stay deep in the good stuff all week long.

Got more time? Extend your stay with us in Niseko and enjoy 10% off regular lodge rates.
